Dear Sirs

Re:- TIVERTON URBAN EASTERN EXTENSION

I would like to make you aware of my concerns regarding the above.

As you will see, I live in Popham Close and at certain times of the day, it can be extremely difficult trying to turn right into Blundells Road.

With the proposed building of 1500 new homes the extra traffic will be a nightmare and turning left or right will take quite an amount of time.

The extra volume of traffic will also effect the students at Blundell's School.

I really do not think this site is the correct place for these homes to be built. I understand a new road is to be put in place but if the site was moved to junction 27 a new road would not have to be made, thus saving money and heartache to numerous families.

I would urge you to reconsider your plans.

Yours faithfully

Mrs Brenda O'Sullivan
