Dear Sirs

Re: TIVERTON EASTERN URBAN EXTENSION

With reference to the above, I am writing to express my feelings regarding the proposed site of a Sports field, together with a Sports hall.

I understand this is to be built east of Glebelands Road. As this is a quiet residential area, may I suggest it be built next to the proposed new homes. This would be more in keeping with the children and younger people, who will be moving to these properties.

I cannot understand why you would want to cause more traffic on Tidcombe Lane, causing extra pollution and damage to our nearby Fen.

Glebelands Road already has parked vehicles on most days thus making the road a single lane and the thought of adding extra traffic and parking, would not only create a problem for us residents, it could result in the termination of our local Bus service to Tiverton Town.

Being retired, we like our area the way it is - Please do not ruin it !

Yours faithfully

Mrs J Curgenven
