Dear Sirs,

29.1.14

Re:-Proposed Siting of Sports facilities at the end of Glebelands Estate

In my opinion I do not think that proper thought has been given to providing a safe access to
The above development and you should consider alternatives.

At the moment the proposed access is via Tidcombe Lane which at this time without
additional traffic provides certain problems for all vehicles that are using it.

Glebelands road has it's own problems with resident parking on one side and often because
of this traffic is held up one way.

Buses all too often have difficulties in negotiating the turning into Glebelands road from
Tidcombe lane and if as is likely further public transport needs to get access to the site from
this route there will be major additional problems.

I would ask you to consider siting the Sports Centre elsewhere and provide a more suitable
and safer access.

Yours faithfully,

P J Barker
