Dear Planning Department

I am very concerned to hear of your plans regarding the Eastern Urban Extension at Post Hill, in particular the proposal to site a Sports Field south of the Railway Walk at the end of Glebelands Road.

Are you aware that the majority of residents at Glebelands are from retirement age to 80 plus - there are very few children / young people.

The Glebelands estate is a quiet area and our wish in our senior years is to keep it so. It must be more logical to put this sports centre near the new housing development that has access directly onto the Blundell's Road.

Trust you will give our views your consideration

Yours faithfully

Brian and Sonia Moore
