9 Follett Rd
Glebelands
Tiverton.

Dear Sir

We object most strongly to the plan to put sports fields at the end of Glebelands Road for the following reasons :-

1. Why here ? We are mainly retired residents and hardly any children live in this area. It's inappropriate to have a sports field here and needs to be next to the proposed new houses.
2. Your plan to create another footpath along the "Paddock Field" is not necessary as there is already a footpath near the end of Follett Road leading onto the canal. This is just a few yards from your proposed footpath.

The increased traffic fumes generated by the extra traffic down Tidcombe Lane will pollute the air and have a detrimental effect on the Fen. We know this has not been looked at and we should like to see an independent and impartial research carried out.

Yours faithfully
