Dear Sir / Madam

I am writing to complain

about the proposed football fields at the end of Uplelands road. I would like to know who is going to use them, there are not many young children here, most of us are 60 plus. Have you any idea the problems the extra traffic would cause? Certain times of the day I cannot get out of my drive for ages because of people either taking or collecting their children from school. Yesterday from the corner of main road to the canal bridge I counted 21 cars parked either side of the road, all the traffic came to a halt, some park right on the corner, that's something else that should be looked at.

Yours sincerely

A. Rowe
