PLANNING Dept

Sir,

I wish to raise another objection to the proposed Urban Eastern Extension.

- ① In respect of anticipated increase in traffic on Tidcombe Lane I sincerely hope note has been taken of the size of this lane, current traffic issues and possibility of traffic queuing onto Blundells Road. Also the 4 current access/eques points to the Cricket/Playing fields of Blundells School which are currently dangerous for pupils - has that been considered in light of increased traffic.
- ② ~~At~~ Although I see no access to the proposed playing fields at the end of Glebelands Road in your planning document has note been taken of the following.
 - (A) Size of Glebelands Rd
 - (B) Current no of cars parked here particularly at weekends
 - (C) Bus turning Area at road end
 - (d) Current restricted access to Glebelands Rd
 - (e) Traffic accessing GT Western Canal.
 - (F) Bridge over GT Western Canal (Tidcombe)
 - (G) Tightness of road from Tidcombe Bridge to Glebelands Rd

(2)

I am not convinced that this Area has been properly Assessed as to size restriction Access/Egress, School pupil safety issues, Public transport requirements etc.

I Await your Consideration

Sincerely
