

# Open Space & Play Area Strategy

Part 2 of 2

**2014 – 2033**

## PART 2 - AREA PROFILE

### 1.0 Introduction

The Mid Devon Open Space and Play Area Study is presented in two parts; the first part comprises an overview of the whole study and includes details on local needs, methodology, open space typologies and analysis of provision which combine to make recommendations for future provision and policies for open space in the district. The second part of the study comprises 25 area profiles which provide more localised information for the main parishes in the district. The area profiles should be read in conjunction with the main report (part 1). Each profile includes:

- Map of the parish showing open space;
- Quantity statistics of provision of open spaces with standards by parish;
- Map showing access to open spaces with standards across the parish;
- Map showing access to open spaces across the main settlement;
- Assessment of quality issues;
- Summary of issues and priorities for the sub area.

All of the maps provided within this section of the report are intended to be used for indicative purposes only. Larger scale maps have been provided as a separate database to the council.
