**Subject:** Re: Mid Devon Green Infrastructure Strategy

Hi Liz

I have reviewed the vision and objectives and support them as they are written. In the existing assets I can assist with mapping the cycle routes. It would be useful to consider mapping the old railway lines mentioned in the objectives, even where in private ownership. You will also need to consider how horseriding fits into the strategy as public bridleways are part of PROWs.

Best wishes  
 Peter

**Subject:** Mid Devon Green Infrastructure Strategy

Dear All,

I have recently started work on a Green Infrastructure Strategy for Mid Devon. You all have different areas of expertise, and many of you have been involved in GI Strategies elsewhere, so your advice would be a great help. With your agreement, I'd like to consult you informally every now and then, and individually as things crop up that are relevant to a specific person or organisation. Please let me know if this is something you don't want to be involved in, and I'll take you off my mailing list.

The initial Vision and objectives for the GI Strategy can be viewed at <http://www.middevon.gov.uk/index.aspx?articleid=8128> . I would be very grateful to receive any comments / constructive criticism on this, by March 31<sup>st</sup>.

Letters will be sent out tomorrow, seeking initial views and information from stakeholders, on local issues and priorities for green infrastructure. Your input would be much
