**Subject:** COMMENTS RE GREEN INFRASTRUCTURE  
**Importance:** High

Apologies that these comments are late but hope you will include them in connection with the above.

"The Parish Council is of the view that the parish has a deficiency in allotments. We should look to create a community garden for growing vegetables for at least ten plots.

Community composting – would be a good addition, especially in conjunction with a community garden.

Car park – Due to the age of the village a need has been identified several years ago for a car park in the region of Lower Town, for at least 30 vehicles linking footpaths within various areas and the continued maintenance of these and all the other footpaths within the Parish  
The continual maintenance of the Great Western Canal should be included"

Christine McIntyre  
Clerk to Halberton Parish Council  
Fellow of the Institute of Legal Executives
