Subject: Green Infrastructure Plan

Dear Sir/Madam,

TIVERTON CIVIC SOCIETY fully approve the Mid Devon Green Infrastructure Draft Infrastructure Plan which we consider to be very thorough and well considered. Funding for Delivery of such an ambitious and costly programme, which it is stated will be largely dependent on CIL as well as voluntary and other independent organizations, will clearly pose considerable problems. The Society are somewhat surprised at the low priority given to Tiverton, where the greatest housing and employment expansion in Mid Devon up to 2026 is planned, but welcome the stated flexibility in the Strategy.

Yours sincerely,
Jeremy Salter (Chairman, Tiverton Civic Society)
