Act 3.6.13

Serendipity  
47A Post Hill  
Tiverton.

Ex 16 & 19

29<sup>th</sup> May 2013

1/2624

Masterplanning Consultation  
Forward Planning  
Mid Devon Dist. Council

Dear Sir or Madam.

Objection to E. U. Extension.

Having lived in Post Hill for the past 26 years & having always throughout those years paid the premiums for doing so, I object to the proposed development which will destroy the levelness.

My home & garden gently slope down to connect with the field where houses are proposed. In this field there are to be seen, deer & their young, hedgehog, rabbits, grass snake, slow worms and, resting in the high tree, Buzzards

②

which gracefully soar above the open space.

The local farmer grazes cattle & sheep and the field has yielded crops over the years.

Long may this continue.

The view from the rear of my house will change radically from rural to suburban.

The road at the front of my home is certainly not suitable to accommodate excess traffic. The A361 North Devon Link Road was originally built to take away the heavy traffic. I believe it is unreasonable to consider allowing excess traffic to pass Beundell's School where pupils sleep, study & cross the road so often.

A Waste Renewable Depot

③

would surely be better sited  
at Junction 27 of the M5.

Please register my objection  
to this Tiverton Eastern Urban  
Extension. The excessive scale  
of which is not to the credit  
of lovely Tiverton.

Yours faithfully,  
" (MRS)
