Dear Mr Guscott

Please find below the comments made on behalf of Cullompton Town Council by the Planning Committee on the proposed Tiverton Eastern Urban Extension:

- a. There was concern about the design and layout as the existing Blundell's Road is very picturesque and the development will need to be sympathetic and in keeping with the surrounding landscape and architecture, including the historic Blundell's School.
- b. It was pleasing that there has been a good deal of thought about the community infrastructure including schools and community spaces.
- c. It was noted that the council would like to see the same level and detail of consultation over developments Cullompton.
- d. That the increased level of traffic that these houses will create should be fully considered, including the impact on the pupils of Blundell's School transiting between their halls of residence and the playing fields.

Yours sincerely

Steve Kearon
Assistant Town Clerk
