I have the following questions and comment.

1. Where is the evidence of economic growth in Tiverton that leads you to predict the need for such a large new housing development?
2. What plans have been made to deal with a situation where developers do not complete the scheme because of lack of demand for the properties?
3. Such a large development on each side of Blundell's would inevitably lead to an increase in the amount of traffic passing between the school sites, thereby creating an increased hazard for the children.

Yours,

Anne Roxbee Cox
