Hi,
I've looked at many of the planning docs. Please go for the less-developed, greener option 2. Moorhayes is way too densely packed, with not nearly enough green spaces and large trees - don't repeat that mistake Please keep as many large trees as possible, even the less valuable ones have been growing for 20 years or more, so they will look much better than anything newly planted. Keep the hedgerows and other wildlife habitats as much as possible. Have plenty of paths for cycles and walkers. Make this a development to be proud of, and celebrate Tivvy's unique green setting!!!

Yours sincerely,
Sharon Sproat
