I am against the Eastern Urban extension if it does not have a direct road access to the link road. I live in Glebelands, and Blundells Road is already busy at 8.30 in the morning when I join it from Tidcombe Lane, to go to work. There is alot of traffic coming out of Blundells Prep school, and with traffic lights at Blundells school that stops the flow of traffic it would be chaotic to have even more traffic using the road.
