Dear Sir or Madam,

Tiverton Eastern Urban Extension. Masterplanning: Options Report May 2013

We have the following comments on the above:-

- ① Any reduced number of houses & amount of industry should not be accommodated elsewhere in Tiverton.
- ② The first thing to be built should be the new junction onto the North Devon Link Road
- ③ The road pattern should aim to divert as much traffic onto the new junction as possible & away from Halberton & Blundells School.
- ④ The old railway line should remain a pedestrian way as well as a cycleway. It should never be used for motor vehicles.
- ⑤ New cycleways are needed & should be independent of the road system.

Yours faithfully,

(MR & MRS D'ALESSANDRO)
