Subject: North West Cullompton Master Plan

Dear Sir or Madam

AL/CU/1/G1*

I am writing to register my objection to the building of approximately 130 new homes in a field onto which my property directly overlooks.

October Cottage is a Grade II Listed property and faces south onto a field on which we understand a large number of homes are going to be constructed. These will be a complete eyesore and totally destroy the rural feel of the area, as well as destroying prime agricultural land.

In addition, a bridleway runs near to the house which I use frequently for dog walking and horse riding. This bridleway is very popular and I am given to understand that this will also be affected. This is unacceptable.

Rull is a rural hamlet and will simply not be able to cope with all these new houses. This proposed development will totally destroy the country feel of the area as well as physically wiping out precious wildlife and trees. In addition, there will be years of us having to cope with the noise and disruption of lorries, diggers and other construction vehicles. My husband is retired and the stress that this would cause to us is extremely worrying and distressing, not to mention depressing.

Please would you therefore note my objection to this Planning proposal.

Many thanks.

Yours faithfully

Mrs C S Nicholson
