Subject: North west cullompton

Dear Sir/Madam

We are writing with concern regarding our home Devonia House, Growen Lane, Cullompton, EX15 1NH which is situated within the proposed housing development area, for North west Cullompton. Due to the levels of the land we are concerned that we would be subject to flooding should this development take place. We are not objecting to this development but we need total assurances and guarantees that our home will never be subject to Flooding. The fact that our home is reliant on a spring fed well concerns us that there maybe a period of time when this will be disrupted or contaminated. We would like a written guarantee from the council passing this application that all measures and environmental aspects have been satisfied and will provide us with an indefinite indemnity and adequate protection from flooding and a clean water supply.

We look forward to hearing from you.
Andrew & Victoria Smith
