3. The Council must ensure that infrastructure is provided in a timely manner alongside the development, without making the development unviable. 4. In order to reduce the time taken to build the road linking Willand Road with Tiverton Road it is proposed to construct it from both ends at the same time and then join these ends together. This will require the formation of a temporary vehicular access from St George's View which would be closed to traffic when the through road opens.

Yes/No

Do you agree with the proposed way of constructing the road from both ends at the same time?

Yes

Do you agree with the opening of a temporary vehicular access from St George's View?

No

Do you have any comments about the delivery or construction of the road?

I feel it extremely hard to comprehend why you should wish to disrupt the lives of 30 many residents that live in St. Georges View when there are other alternatives to access the site for redevelopment which would cause for less disruption to occupants of houses - these being only a handful on the alternatives. Surely it is possible to get a loan in order to build a road (one that is on the plans) and then repay it when the houses are built? In addition our road is far too narrow for as many loaded lorries to use. It's a pity the planners are so selfish.
