**Q1: 1. The proposed masterplan document sets out a series of guiding principles which should be followed in drawing up detailed planning applications. These guiding principles are set out in pages 34-39 of the draft masterplan and relate to urban design, movement and transport, landscape, open space and recreation, socially equitable, economy and employment, energy and resource efficiency and character. Do you agree with the proposed guiding principles as set out?**

No,

Do you have any comments about the guiding principles?  
Its a appalling idea that is going to ruin this little town, the traffic is awful already without adding 100`s more cars , the small town atmasphire will be lost forever , we do not need or want more houses built in cullompton , there was plenty built down by tesco and up above crow green , we do not need more traffic , i dare say our opinion does not matter tho an this will still go ahead the same as tesco did .

**Q2: 2. The proposed masterplan envisages 1100 houses, 10,000 sq metres employment floorspace, a primary school, community centre, local centre, at least 5 gypsy and travellers pitches and more than 28 hectares of green infrastructure including sports pitches, equipped play areas and allotments.**

Yes/No

**Do you agree with the proposed uses?**

No

**Do you agree with the location of the proposed uses as set out in the framework plan on page 43 of the draft document?**

No

Do you have any comments on the different uses, their amount or location? Are there any other uses that you would like to see and if so, why?

stop trying to make it sound so great when it will ruin this little town

**Q3: 3. The Council must ensure that infrastructure is provided in a timely manner alongside the development, without making the development unviable. Of the infrastructure that the development is expected to provide, the masterplan looks to prioritise the delivery of the primary school site and the new road that will link Willand Road with Tiverton Road. Do you agree with the prioritisation of the primary school and the road?**

No,

If you disagree, what infrastructure do you see as being the most critical to provide in connection with the development?  
yes dont build it in the first place

PAGE 4

**Q4: 4.** In order to reduce the time taken to build the road linking Willand Road with Tiverton Road it is proposed to construct it from both ends at the same time and then join these ends together. This will require the formation of a temporary vehicular access from St George's View which would be closed to traffic when the through road opens.
