Reasons

The application scheme proposes the erection of a stable building and hard standing area. The design, scale, location and materials proposed for the new building are considered to be acceptable. The provision of a new access through the existing bank is not considered to harm the visual amenity of the area. Given the siting of the building, scope of hard surfaced areas and the scale of the equestrian use, it is not considered that the scope of change proposed would impact upon the privacy or amenity of the occupants of any neighbouring dwellings. On the basis that the proposed stable building is for the private use of the occupants of the existing property only, it is not considered that the application proposals will result in an unacceptable impact on the local highway network. Given the siting and location of the new building and hard surfaced area it is overall not considered that it will harm the character and/or the visual amenities of the surrounding area. Due to the extent of the hardstanding to be provided it is considered necessary to request further details in terms of how surface water will be managed so as not to increase risks of surface water flooding. Reasons

The National Planning Policy Framework establishes the principle that the reuse of redundant or disused buildings in the open countryside as dwellings, could be considered acceptable, and policy DM11 of the Local Plan Part 3 reflects this guidance where a building makes a positive contribution to the rural character of the locality. The proposed conversion of this disused barn to a dwelling is acceptable in principle, given the location of the site adjacent to other buildings. In addition the conversion will provide an enhancement to the area and the building itself is in compliance with the National Planning Policy Framework para 55. The scope of the works and overall design is appropriate for the existing building and adjacent buildings. The proposed works will not result in loss of any significant fabric and although it will inevitably have an impact on the character of the building, this is, on balance, considered to be reasonable in the context of the policy considerations. There are highway issues to consider however these are considered not to be sufficient to warrant refusal of the proposal and adjacent property will not be adversely affected by the scheme. Therefore, the proposal is in accordance with the Core Strategy policies COR1, COR2, COR3 the Mid Devon Local Plan Part 3 (Development Management Policies) Policies DM1, DM2, DM8 and DM11 and DM14, DM29 and paragraphs 55, of the National Planning Policy Framework),

Reasons

In accordance with the requirements of Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015, in determining this application the Local Planning Authority has worked proactively and positively with the applicant to ensure that all relevant planning considerations have been properly resolved. This has included pre application discussion, negotiation and discussions. 15/01492/FULL	Higher Trickeys Cottage Morebath Tiverton Devon EX16 9AL	Installation of 11 replacement windows and 3 doors	REFUSE	DEL	13/11/2015

Reasons

In accordance with the requirements of Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015, in determining this application the Local Planning Authority has worked proactively and positively with the applicant to ensure that all relevant planning considerations have been properly resolved. This has included negotiation. In accordance with paragraph 69 of the National Planning Policy Framework, the Local Planning Authority has also involved the community in the consideration of this application.

Reasons

- 1 The introduction of a UPVC double glazed window is not sympathetic to the historic character of the building. The window is not appropriate in terms of detailed design and detracts from the appearance of the Grade II Listed Building contrary to the objectives of COR2 of Mid Devon Core Strategy 2007, the National Planning Policy Framework and DM2 and DM27 of Local Plan Part 3 (Development Management Policies), which seek to preserve the special character or historical interest of Listed Buildings.

15/01494/LBC	Higher Trickeys Cottage Morebath Tiverton Devon EX16 9AL	Listed Building Consent for installation of 11 replacement windows and 3 doors	REFUSE	DEL	13/11/2015
--------------	---	--	--------	-----	------------

Reasons

In this case, the proposal would not preserve the grade II listed building or its setting or any features of special architectural or historic interest that it possesses through the loss of historic fabric and the resulting change in the appearance of the building. This would not be outweighed by the benefits arising from an improvement in energy efficiency. The proposed alterations would result in the loss of significant historic fabric and the proposed alterations are considered to have an adverse impact on the special interest of this Grade II listed building and would therefore conflict with the duties imposed by sections 16 and 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 and the objectives of COR2 of Mid Devon Core Strategy 2007, NPPF paragraphs 132 and 134, and DM27 of Local Plan Part 3 (Development Management Policies).

Reasons

- 1 Sections 16(2) and 66(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990) require the local planning authority have special regard to the desirability of preserving a listed building or its setting or any features of special architectural or historic interest which it possesses. The application proposes the removal of all 5 windows on the front, principal elevation of the Grade II listed building, 4 gable windows and doors and 5 windows and doors on the rear elevation and their replacement with PVCU double glazed units. Insufficient evidence has been submitted to show that other options have been explored to either repair the windows or improve their thermal efficiency before options involving the loss of historic fabric and details are proposed. Furthermore, insufficient justification has been advanced to outweigh the harm identified. The current proposal therefore does not follow good conservation practice as it involves the wholesale replacement of historic windows which are mentioned specifically in the listing. The loss of the existing fabric would harm the significance and special interest of this building. The proposal is therefore contrary to the objectives of COR2 of Mid Devon Core Strategy 2007, the National Planning Policy Framework and DM27 of Local Plan Part 3 (Development Management Policies), which seek to preserve the special character or historical interest of Listed Buildings.
- 2 The introduction of double glazed windows and doors is not sympathetic to the historic character of the building. The windows and doors are not appropriate in terms of detailed design and detract from the appearance of the Grade II Listed Building contrary to the objectives of COR2 of Mid Devon Core Strategy 2007, the National Planning Policy Framework and DM27 of Local Plan Part 3 (Development Management Policies), which seek to preserve the special character or historical interest of Listed Buildings.
