EX 17 6QE

Dear Sir or Madam

I am writing to request a refusal for the proposed building site at Eastington Lane, Lapford. I have enclosed a sketch of the lane to show how it is for us - neighbours living there. We already have to make several attempts to get up the lane <sup>at times</sup> after leaving the main village road because it is so narrow & the amount of traffic.

With the school, which has heavy traffic at times & also the church having funerals etc. causing parking all along the road, it is just

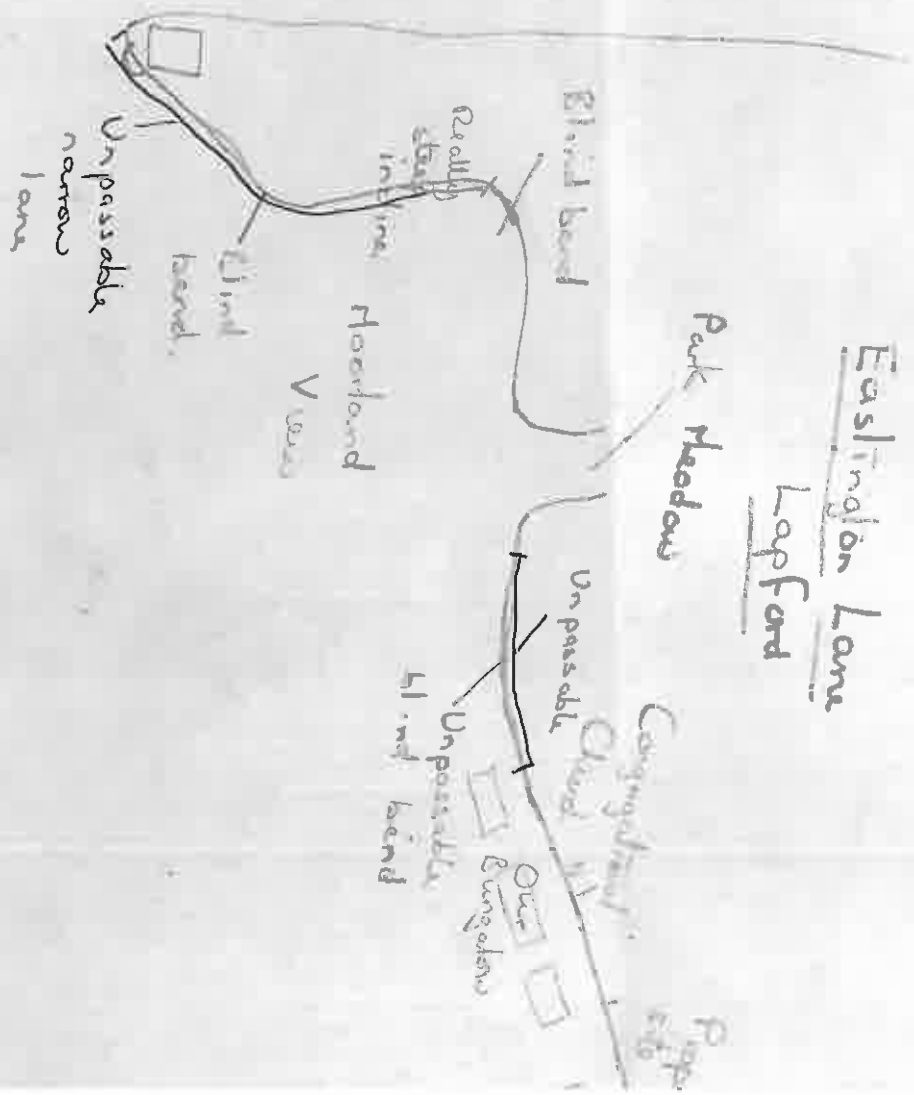

not a suitable proposition.

Looking at the wider picture, I can't see the need for more houses in Lapford as we have recently lost, village shop, butchers & post office, People have to travel so far for places of work, which means more cars on road and we are constantly told cars are causing pollution. The train service is absolutely useless - the buses are not always at the right times.

Yours sincerely
