IS We Need To Think About our young generations that are here now and will be coming along also. We don't want to see crime and violence on the streets and around the town because of no where to go and boredom setting in. So I have had a great thought on this situation I would like to see enjoyment brought into Tiverton like building a games centre where children parents and people of all ages can have enjoyment also easy access for people in wheel chairs. I know money can be an issue when it comes to building things and this is where I say funds should be available from the government. If there is a good idea it would benefit people of the town. People would have somewhere to go it would cut crime and save partially resources being used when it comes to the police. It would also benefit our youth and people of all ages and disabled.

From building a games centre could be run on an affordable

LEVEL meaning cheap yearly membership, selling soft fruit drinks + snacks and No Alcohol a family friendly place also it would build more of a community in the town bringing people together and breaking division within the town

it would get the children out of the houses rather than being glued to games consoles also upsetting other neighbours by fly tipping or any other ANTI-social way.

We need to break the cycle of unpleasant ways and build this town to bring people together and also to encourage tourists and visitors into the town all through out the year.

We don't want a dying town and losing good places to visit as what happened with our snooker club up near the market THE ELECTRIC SNooker club it was called there were many youngsters that went there and they enjoyed it if it was still running today there would have been some up coming professional players but sadly the club was closed

the <sup>games</sup> centre i was on about  
in having in TIVERTON IF  
The Funds could be found  
and the Right people to  
Run it. I would like to see  
SNOOKER TABLES, POOL TABLES,  
Dart ALLEYS, TEN PIN Bowling,  
TABLE TENNIS Basically a good  
ENVIRONMENT and a variety of  
Choice. This gives your Panel  
an INSIGHT INTO my thoughts  
and How to improve the  
TOWN.

THANK YOU FOR TAKING TIME  
IN READING MY LETTER.  
It would be nice if other  
people could come forward  
to support THIS idea to  
bring some ENJOYMENT to the  
TOWN we need to attract  
people in the TOWN and out  
side the TOWN.

Yours sincerely  
DAVID HOLNE
