Subject: Proposed development in Coplestone

Dear sir

I would like to raise an objection to the proposed new housing in Coplestone.

My main concern lies with the fact that Coplestone Primary School is already full to bursting with new families moving into existing housing in the village unable to get places for their children - where will any additional children be sent? The school facilities are already being stretched and there is concern amongst many parents that the outstanding performance and caring community feel of the school will be compromised should it grow any further.

The village has had a lot of new development in recent years and is just starting to develop a community atmosphere again as the many new residents settle into village life - another influx of new people will negatively impact on this.

Coplestone does not have the facilities to support additional residents - there is no doctors surgery for example, and as mentioned above local children are already being turned away from the school.

I hope you will take these issues into consideration.

Thank you
Helen Olsson
