**Subject:** Draft Local Consultation Plan Silverton

**To the Mid Devon District Council**

**We object** and express deep concern at the magnitude of the projected expansion of housing in Silverton. Whilst appreciating the likelihood of population growth the need for housing must be pursued proportionally.

This village has a good track record on this score. The existing roads were laid out for a bygone age when horse and cart were the main means of travel. The Primary School, the Health Centre, Sewage Works, we understand have minimal spare capacity, roadside parking is at a premium and daily movement of large Agricultural vehicles through the village already creates a continuing danger to pedestrians. Please don't destroy this Exe Valley village.

If Option 2B meets the various criteria,  
we support that, but if not we request a more measured response for this community.

From Alec and Patricia Rolls
