Dear Sir or Madam

I'm writing this letter to put my objections in for the 68 houses proposed for the field at Quick Farm joining on to the section of Buttercup Road. We would lose the view to the Blackdown Hills and the loss of bird life that has been established in the hedgerows and bats which is a protected species fly through the field

Also our primary school is already overcrowded and the medical facilities are already difficult to get appointments to see a Dr, there is also a lack of amenities we only have one shop and a post office there is nothing in the village for the boys and girls to do just hang around on the playing field

Increased traffic through the village gives me concerns for the old and the young

So I object to this proposal
