I wish to strongly object to the development of Quicks farm and J27. I moved with my family to willand two years ago. I certainly did not expect the amount of heavy lorries that go through and a good few at unacceptable speeds. I thought it was a safe place for children but I was wrong and now there is this threat of more bad driving, ruined roads and bridges, overcrowding at an already oversubscribed school with a knock on effect at senior level, extra noise and the smell of sewage is already bad.

I have trouble getting appointments at college surgery now (I don't even try to ask for one in willand)! Not always great for a disabled person.

From past experience when new houses come the existing ones drop in price when you've done your best to maintain them, soul destroying and upsetting.

Surely if collumpton is to grow, it desperately needs development of business, schools and housing. I like a lot of people only use tesco there as the main street looks so bad but I would much prefer it.

A very upset and disturbed...ginette young.
