RE: - Development Site in Oakford as shown on
Consultation Document

My husband and I are very strongly against any development at this site. There is no housing requirement in Oakford, and there are certainly none of the facilities available for young people to warrant a need for affordable housing. The beautiful tree lined bank coming into the village from Lower Oakford, has already been partially destroyed by the entrance at this site, and if you allow housing here, it will mean even more destruction of our beautiful countryside, and more traffic and noise disturbance.

It is very clear that the villagers of Oakford do not want this development, and I think our views should be put above those of outsiders.

Yours sincerely
Mrs P Buckner.
