Dear Sir/madam

I am writing to object to any
Proposed planning of building
195 houses on 3 sites in Hemyock

my objections are

- 1/ The Doctors are at full flow
and couldn't cope with much
more. Don't forget they deal
with Churchinford & Donkeswell
as well. all who have like Hemyock
grown greatly over the last few
years
- 2/ The School is as good as full
a family moved in with 3
children and could only get 2
of them in our School one had
to be taken to another School.
Parking to get children in & out

of school is impossible, my daughter lives near the school and on many occasions hasn't been able to get in or out of her driveway due to parents parking in front of it. Where would all the extra parents park?

3/ all roads into Henyoch are minor roads and can only be used by one way traffic at a time at many places

The main road coming in from Wellington is one of these, cars are parked along this road, no pavement for people to walk along. Cars have to pull in to let others by and this is a road used regularly by people with young children to get to school and to the shops. By building more homes you could be sending another 200+ cars along this road.

4/ By Building on land North of Culmbridge farm could increase the risk of flooding, the bottom of this field and 2 fields on both sides flood.

When the river/fields are flooded people can't drive into Hemyock so park their cars ~~etc~~ walk across the river/fields via the wooden bridge home.

The place we park our cars at the moment is being built on so where are we going to park our cars when it floods let alone all the extra cars.

5/ Badger Setts are on land north of Culmbridge farm these would need to be taken care of being protected animals

6/ lots of house in Hemyock are for sale and have been for

Several months so why do we need more?

7, The Sewage is already under undue pressure and should have be sorted out to cope with the new buildings that have already gone up with in the last few years No way should another 195 more homes be added to its system.

Hoping my objections will be taken note of and registered.

Your Sincerely

Mrs A. Welch
