Subject: Proposed development plan for Yeoford

Dear Sirs

I don't understand why the residents of Yeoford have not been consulted earlier concerning the Mid-Devon planning consultation!

I understand the consultation was initiated last year but as far as I can see no responses have been made from Yeoford. Many other parties, parishes and towns have responded but nothing from Yeoford despite the fact that somebody must have suggested that a new housing development might be appropriate adjacent to Hill Barton Farm.

The first my neighbours and myself new of this plan and consultation was earlier this month just 3 weeks before the deadline for comments.

My request to Mid-Devon council for more information was not even acknowledged.

My wife has submitted some comments which I fully endorse. However, it is difficult to make constructive comments when the overall picture is not presented. How does the proposal fit in with the existing and planned infrastructure of the village? What is the expected environmental impact. What is the reason for additional housing?

Yours sincerely,
