Subject: Local Plan Review Consultations. Shillingford

Dear Sirs,

I write to object to the inclusion of housing development off Bowdens Lane Shillingford under the Mid Devon Local plan Review.

To provide scope for 50+ houses in a very small village with poor transport links, no employment and no local facilities is not a sensible use of resources. 50+ houses with an average of 4 residents in each plus 2 cars per household means 200 extra people and 100 extra cars on the road in and out of the village.

Far better surely to concentrate on providing housing on brownfield sites in built up areas where prospects for employment and infra structure are better? We have an increasing need in the UK for food security. To use good agricultural land for housing when other non-agricultural sites are available flies in the face of commonsense.

Your sincerely,
Lesley Prior
