**Subject:** proposed developement of Junction 27

i must protest strongly against the proposed developement in this area. The traffic will increase, the local services will suffer badly, small towns should stay thus, villages do not need more large numbers of residents in an area that already has many houses for sale, without buyers. This is an ill thought proposal, and i am sure that most local residents will be in opposition. The proposed large shopping and "recreation " developement should be stopped immediately.
