Dear Forward Planning

With reference to the proposed development in the Hartnoll Farm area at East Tiverton, I am writing to register my disapproval and concern.

The Eastern Urban Extension is indeed a huge project which seems to be escalating towards 2500 dwellings. If we must have a development at all it must be reduced considerably to stay in keeping with our Devon countryside.

Blundells Road cannot cope with all the extra traffic that will be generated and the school children will be put at risk. "Traffic Calmers" will not solve the problem.

I conclude by adding my concern regarding the Grand Western Canal and the Horse Drawn Barge Trips which attract many visitors each year. Tivertonians are very proud of the Canal. We do not want an adverse effect on what must be our major attraction. Visitors want to enjoy a trip through our lovely countryside not a housing estate.

Please look again. It would seem logical to move the development to Junction 27 with close proximity to the Motorway for Taunton and Exeter.

Yours faithfully

B Downs (Mrs)
