**1. Do you agree with the Vision and Spatial Strategy?**

Yes

A structured and substantiated approach is considered appropriate. However, it was considered premature until the Strategic Housing Market Assessment has been completed.

**2. Draft Policies S1 and S2 set out the Council's approach and priorities for sustainable development. What is your opinion about these policies?**

We support S1 & S2. Please note, however, that the status and protection of the AONB should not be diminished (the impact of, in and around it)

1. Policy S3 includes two options for the distribution of development over the plan period (2013-2033). The first option is to continue focusing development in the three main towns according to their current sizes and roles. The second option is to provide for long-term growth (post-2026) in a new community. A separate question deals with the location of a new community, but please indicate your opinion in principle below. Which option do you prefer and are there alternative options we should consider?

Other

We support Option 1, with a focus after 2026 on option 2. However, development allocation in rural areas should be restricted to the option 2 figure of 1,040 as long as the SHMA substantiates this

**2. If the Council chooses to pursue Option 2 under Policy S3 (the new community option), which location would you prefer and why?**

Option 2(a) - Land at Junction 27 and adjoining Willand

The vast majority of parishioners were in favour of this option. There is good infrastructure, roads, rail, airport and public transport. However, there is a need to improve the retail, employment, commercial and light industrial aspect of this option

1. Policies S4-S6 are strategic housing policies setting out a potential target for annual rates of housing across the district, the proportion to be affordable and adaptable, the amount of public open space to be provided, and the Council's approach to ensuring housing delivery. Do you support these policies or have suggestions on how they could be improved?

Object

Too premature, need to wait for SHMA to be completed. Do not lose sight of the fact that affordable housing needs to be prioritised. Thought should be given to the balance of community, types and range of housing. The type of property and associated developments should reflect the individual settlements requirements as identified by their own up to date housing needs survey. This is particularly relevant in rural areas.

2. Economy and Infrastructure policies are set out in Policies S7-S9 of the options document. These propose 154,000 square metres of commercial floorspace (including retailing) over the plan period (2013-2033) and set out the Council's approach to town centres and infrastructure delivery. Do you support these policies or have suggestions about how they could be improved?

Support

The retail should not compete with or diminish town centre. The commercial, light industrial should be increased. S8 is pivotal. The vitality and viability of town centres should be pivotal focus of the policy

1. Policy S10 seeks to sustain the quality of Mid Devon's environmental assets and minimise the effects of development on climate change. Do you support this policy and do you have suggestions about how it could be improved?

Support

We strongly support this policy and linked to sustainable development is of paramount importance.

2. Policies S11-S15 set out strategic policies for the towns, villages and countryside, including expected annual rates of development for the towns which can vary depending on the options discussed under Policy S3 (amount and distribution of development). Do you support these policies and do you have suggestions about how they can be improved?

Support

Other

Town centric, cascading to large settlements which can meet the sustainable development criteria with suitable infrastructure paramount.

**1. The Site Allocations section of the Local Plan Review options document includes numerous options for development sites in the towns and villages. These exceed the amount of development likely to be required, but the Council wishes properly to consider all the available sites before making decisions on which are most appropriate. Please tell us your opinion on specific sites in this chapter of the plan, continuing on a separate sheet if necessary. Providing detailed reasons for any objections will help us evaluate and compare the suitability of different options.**

Development in Hemyock would fail the criteria set out in the Local Plan for the following reasons:- School and medical centre are close to or over capacity. There is limited employment and no new employment is proposed. HIGHWAYS & TRANSPORT - poor public transport links to key destinations, development would increase the need to travel by car therefore increasing carbon emission. The through traffic reduces the capacity of current highways due to the high proportion of commercial vehicles servicing neighbouring Districts (east Devon/Somerset). The settlement is remote and the highways are poor quality and narrow and steep due to the topography. INFRASTRUCTURE - the current infrastructure cannot accommodate more sewerage or storm water drainage. The village is no longer self sufficient (no diesel/fuel and has no mains gas. ENVIRONMENT - Any development would have a detrimental affect on the visual and ecological species rich AONB. Climate change has seen regular flooding in the village already. The proposed development on the East side of the village would exacerbate the flooding problems.

**2. The Council adopted its Development Management Local Plan (LP3) in October 2013. This plan is included in the options consultation without modification, but pages 102-107 explain where amendments or new policies are being considered. Do you have anything to say about the amendments or new policies being considered, or comments about the existing adopted policies included within the consultation document?**

No Response

**1. NOTE: RESPONSES CANNOT BE REGISTERED WITHOUT A NAME AND ADDRESS Name**

Hemyock Parish Council

**2. Please provide your postal address**

House No. - Park Farm

Address 1 - Durkeswell

Town - Honiton

Postcode - EX14 4RN
