Subject: New Housing in Coplestone

We are writing to object against the Proposals of building more homes in Coplestone, we are against it, because, there is no more room at the school, because they have been letting children from outside of the catchment area, making no room for anybody's children moving into the village, the school has been extended a few times already, we have no village hall, lack of facilities for the youth of the village if it was not for the congregational church, who runs a youth club, as a cafe every Thursday mornings, and does a meal the first Tuesday in the month for the village, there would be nothing going on in the village we have got a pub, who has dart teams and skittle teams, also since we have had, other housing in the village, we have had more floods on our roads, and also the children's playing area gets flooded. Our objections for land at Dulings meadow, being used for housing, is that the school is already over subscribed, and also the village cannot take anymore housing with hardly any facilities. Our objections to Bewsley farm land, being used for more housing, is that the school is over subscribed, and also the village cannot take anymore housing with hardly any facilities. Our objections to the land at the old abattoir site being used for housing, is that the school is over subscribed, and we have hardly any facilities. It is said there is need for affordable houses, but what the Government says is affordable, we do not because, nobody can afford them, with the low wages we earn in Devon. also the houses should be allocated, to local hard working families, but seems to us that the people that do not work, never have worked gets priority to housing. If there are to be houses built, the only land we think should be is the old abattoir land.

Sincerely
Edwards

Yours
Phyllis and David
