**Subject:** housing development at culmstock

Me and my husband strongly appose the proposed housing developments for Culmstock for the following reasons.

1. The village is already busy with traffic and the proposed houses will make the village even busier.
2. There aren't any pavements in the village and the extra traffic will make it more dangerous.]
3. The proposed housing at Highfield will block some of the Beacon which is an area of outstanding natural beauty.
