Dear Forward Planning Team,

I am writing to object to Option 1 in the Local plan review and object to the plans for extension of development east of Tiverton including Hartnoll Farm.
The reason for my objection are : the lost of grade 1 farming land which we need for food production. Already food prices are on the increase due to lack of land.
The effect on the amazing tourist attraction The Grand Western Canal which supports a wide variety wide life.
The impact of increase traffic through Halberton which is already struggling with congestion.
The covering of flood plains with housing and new relief road causing potential risk of flooding down stream including Tiverton and Lowman flood plain.

Regards
Sandra Williamson
