Proposed developments at Dulings Meadow, Bewsley Farm and the Old Abattoir site, Coplestone

I am emailing to strongly oppose the above developments in Coplestone. We have lived in the village for three years and moved here from Hertfordshire because of the quaint rural village life. We feel that the developments will affect this but also have a great strain on the already limited resources. The school and roads just will not be able to cope with a development of this size. Coplestone also has very little public space for children and to walk dogs etc and this would just contribute to a problem that already exists.

There would have to be far more investment into the area before Coplestone could accommodate such a large increase in housing.
