Subject: Culmstock Local plan review

Dear Sir,

I would like to protest against the proposed expansion of the village on the grounds that the increase in traffic would cause danger to pedestrians on the main road through Culmstock, where there is no pavement and no space for a pavement.

I can see that the village would benefit from a small number of affordable homes and market homes, however I do not think the village has the infrastructure to cope with the additional proposal of 25 houses south of Fore Street.
