

# Protect Uffculme & Willand Say NO to Junction 27 Plan

Mid-Devon Council is currently consulting on plans to develop Junction 27 that will threaten not only our countryside but also local jobs and businesses

French insurance giant AXA and local developers want to turn 200 hectares of countryside into an out of town business & retail park - which will pocket them millions of £££'s - leaving us with boarded up high streets, congestion, air pollution & poorly paid jobs with no future

The local economy needs to support our small businesses with superfast broadband, capital investment and apprenticeship schemes  
All of this will lead to real growth, skilled jobs and pride in our area

***We do not need theatres, hotels, conference and visitor centres***

**We can stop this right now if we work together:**

Email or write to Mid-Devon Council & our MP Neil Parish before 24th March & tell them to throw out the J27 Plan
