Subject: Local plan review consultation

I write to object most strongly to the option 1 in the plan review, which proposes a further extension eastwards, which would appear to include most of Hartnoll Farm.

There has been far too much concentration of proposed planning to the east of Tiverton, and as already has been seen by the latest Highways report, the roads particularly the Halberton Tiverton road will be under immense strain, with the proposals that are already in place. I understand that the land itself is grade 1 agricultural land, which should be maintained for agricultural use. In my opinion much more focus should be put on the Junc 27/Willand junction which is the obvious place to have this sort of proposal, with the proximity of the Station and M5.

This option is wholly unacceptable, not needed and not wanted.
