Subject: Re developement jun 27

I am writing to express my opinion of the proposals in respect of the above. Jun 27 is and always will be the gateway to Devon, it is the first exit off the M5 coming south. The countryside that greets our many visitors, brings them back year on year including my own family and friends, to be greeted by a business and retail park would not give a good impression and may stop people coming back year on year. We have all this at Cullompton and look what that has done for the shops etc, it is a town/business centre, we do not need another. We do not need the jobs, nor the housing for locals, Exeter provides all that for people coming into the area to live. This is a small rural community and I would like to see it remain so, that is why I settled here some 27 years ago. Elaine Rudge
