Dear

Re: Landscape Implications of Solar PV Proposals (SPD) – Consultation.

Following your recent consultation request and having studied the document, Bradninch Town Council feel that the importance of agricultural land classifications (currently omitted) should be included in the document, as these are an important factor within the rural landscape of our region. We hope that this comment will be taken on board and that agricultural land, particularly that of high value, will be given recognition and protection for future generations

.

Yours sincerely

A Moore
