Please see below Crediton Town Council's comments on MDDC's new Supplementary Planning Document on refuse storage for new residential properties:

Crediton Town Council welcomes the new Supplementary Planning Document on refuse storage for new residential properties in particular the requirement for new builds to have space for wheelie bins. The Council believes further consideration needs to be given to the increased space required inside a house for the sorting of recyclables prior to putting them out for collection. Due to the amount of space required for recyclables within the home there is concern that the black bag still remains the principle container for the disposal of refuse, including recyclables.

Best wishes  
Emma
