Subject: kingfisher Reach

Good morning

If this is not the correct email address please can you forward to the correct one.

There are 2 new developments being started near Kingfisher reach. This is good for affordable housing and Cullompton. Unfortunately this means increased traffic through what is already used as a rat run, along with Langlands. There has been a few minor accidents and one large one where a car ended up in a back garden demolishing a wall.

Can the council not authorise a Couple of speed bumps to be installed where the speeding occurs. Which is right on the bend?

When the council gave DWH the go ahead to build and gave advise on the road infrastructure did they envisage the Manor road being closed and extra properties being built producing more traffic.

Thank you for reading this email

Louisa

Hi

The police are carrying on surveys based on other complaints from residents .

Any help would be appreciated
Thank you
