# Introduction

1.1 The Commercial Land Availability Summary (CLA) monitors changes in retail, leisure and employment land within Mid Devon.

1.2 For the purposes of this report, commercial land includes the following use classes:

- |   |  |
|---|--|
| <b>A1</b> (Retail)                              | <b>D1</b> (Non-residential institutions)                                   |
| <b>A2</b> (Financial and Professional Services) | <b>D2</b> (Assembly and leisure)   |
| <b>A3</b> (Restaurants and Cafes)               | <b>Sui Generis</b> (commercial uses not falling into any other categories) |
| <b>A4</b> (Drinking establishments)             | <b>B1</b> (Business)   |
| <b>A5</b> (Hot food takeaways)                  | <b>B2</b> (General Industrial)   |
| <b>C1</b> (Hotels)                              | <b>B8</b> (Storage and Distribution)                                       |
| <b>C2-C2a</b> (Residential institutions)        |  |

The National Planning Policy Framework (NPPF) defines economic development as including development 'within the B Use Classes, public and community uses and main town centre uses (but excluding housing development).'

1.3 This CLA Summary covers the period 1st April 2015 to 31st March 2016.

## Why Monitor?

1.4 The Council is required to produce monitoring reports to review the progress of its local plans and supplementary planning documents, and the extent to which the policies in the documents are being achieved. The Core Strategy and Allocations and Infrastructure Development Plan Document (AIDPD) sets out indicators and targets for this purpose. This study forms part of the evidence base for the Authority's Monitoring Report (AMR), which collates data from various sources on development within the district.

1.5 Previously, Mid Devon District Council published two separate monitoring reports each year; the Employment Land Survey and the A1, A2 and D2 Development Study. The CLA incorporates both of these reports as well as other use classes that were not previously monitored. This approach supports that proposed within the emerging Local Plan Review in considering the broader contribution of many types of development in generating employment and economic growth.

## Why Commercial Land?

1.6 The National Planning Policy Framework (NPPF) requires that local planning authorities:

“Plan proactively to meet the development needs of business and support an economy fit for the 21st century.”

“Set criteria, or identify strategic sites, for local and inward investment to match the strategy and to meet anticipated needs over the plan period.”

“Ensure that the Local Plan is based on adequate, up-to-date and relevant evidence about the economic, social and environmental characteristics and prospects of the area.”

1.7 The AMR assesses the implementation of the Local Development Scheme (LDS) and the extent to which policies within the development documents are being successfully implemented. The local authority can use this monitoring information to identify changing priorities for development in regard to these policies. In time trends can be examined to determine whether policies are effective.

1.8 The CLA gives information about land allocations, sites with planning permission, sites under construction, sites completed and any land lost during the survey year in the various use class orders.

1.9 By looking at the commercial land data, a record of economic trends within Mid Devon is provided, not only of land and premises which have been developed but also the updated situation on land that is likely to be developed in the near future.

1.10 In terms of policy there are a number of ways the local authority can use the monitoring information contained within the CLA. It allows the authority to identify changing priorities for development in regard to the policies and proposals set out within the Development Plan. Trends can be looked at against existing policies and targets to determine whether revisions to adopted policy documents might be needed.

1.11 The CLA forms part of the evidence base for the Local Plan and the Authority’s Monitoring Report (AMR).

# Mid Devon Summary

2.1 Mid Devon is an inland area covering 913 square kilometres in the South West of England. It is a sparsely populated area, with an estimated population of approximately 79,500 where the majority of residents live in settlements of less than 3,000 people.

2.2 The main concentration of people is found in the eastern part of the District. Tiverton (population approx. 22,200) is roughly central to the district, located about 11km (7miles) from Junction 27 of the M5 and the Tiverton Parkway mainline railway station at Sampford Peverell. The M5 passes through Cullompton (population approx. 9,200) on its eastern side, with Junction 28 providing direct access to the town and the A373 running east towards Honiton. Crediton (population approx. 7,900) is the largest settlement in the west of the District, about 13km (8 miles) from Exeter. (Source of population figures: Devon County Council – (2014) PPSA Estimates rounded).

2.3 The hilly, agricultural landscape is the area's defining physical and environmental characteristic. Most of the rivers in the district drain southwards in steep sided valleys with large expanses of floodplain. The rural nature of the district has led to a high dependency on the car, which in turn has an impact on air quality and climate change.

# Employment Structure

- 3.1 The large and economically successful urban areas of Exeter and Taunton are just beyond the southern and eastern boundaries of the District respectively and exert an influence over the Mid Devon economy. For example, 24% of Mid Devon's working population found employment in Exeter according to the 2011 census.
- 3.2 Manufacturing is particularly important in Mid Devon accounting for 23.9% of jobs compared to 13.4% in the sub-region (source: Exeter City Council: Economic Trends Report, February 2014). In Mid Devon there continues to be a large number of employees in agriculture and forestry, though national trends generally show a continued decline in these sectors, which could be a potential threat to employment in Mid Devon. With the M5 route through Mid Devon, land transport is a major sector; the Mid Devon Employment Land Review (2013) forecasts growth in this sector as well as wholesale trade and motor vehicles trade.
- 3.3 Small and very small businesses are important to the local economy. 80.5% of Mid Devon businesses employ 1-4 people (Source: ONS). Rural parts of the district show higher proportions still. 15% of the economically active population is self-employed (2011 Census) and historically the proportion has been comparatively higher in the rural areas (2001 Census). Rates of people working from home has also grown in recent years. Whilst nationally the rate has been growing for over 15 years, it is across the South West where the highest percentage of workers use their home for work. Rates have increased by 1.5% since 2008 (ONS Population Survey 2014), and there is anecdotal evidence that Mid Devon is no exception.
- 3.4 Approximately 0.9% of the district's working population are claiming job seekers allowance (Official Labour Market Statistics 2016), which is slightly higher than in 2015. To meet the needs of a growing population, and to ensure that out of work levels remain low, it is important to ensure an adequate supply of commercial sites to meet local economic needs.

# Method

- 4.1 The period of monitoring for any particular year is between 1st April and 31st March. This CLS covers the period 1st April 2015 to 31st March 2016.
- 4.2 Information has been gathered on new planning permissions, total planning permissions, sites under construction, completions and land lost. This was achieved through a combination of desk-based assessment of planning history and site inspections. Staff in Development Management, Economic Development and Building Control also assisted in the process.
- 4.3 New Planning Permissions: this provides an overview of applications – both full and outline that have been approved over the given year (though note some may have started construction or been completed within the year).
- 4.4 Total Planning Permissions: this indicates the total permissions (in hectares and square metres floorspace) for development at the end of the monitoring year i.e. includes extant permissions from previous years. It will also include land with a valid permission but which has not yet started construction. Excluded are local plan allocations without a current permission.
- 4.5 Commencements: the figures presented show the total amount of development which is under construction as at the end of the monitoring year. This can indicate how development is progressing and how it will develop over the coming year. The floorspace total includes extensions or new buildings within the curtilage of existing premises and industrial estates.
- 4.6 Completions: this indicates completions within a given year. The floorspace total includes extensions or new buildings within the curtilage of existing premises and industrial estates.
- 4.7 Land lost: this indicates land that has been lost from a particular use and has gone to another use e.g. residential.
- 4.8 From 2008/09 all employment sites are included. Previously they were taken into account if the new floorspace was over 100 sq.m. From 2014/15 A3, A4, A5, C1, C2 and D1 uses are also monitored.
- 4.9 Changes of use applications between the use classes have not been included.
- 4.10 Development sites that involve the reuse of residential gardens are not considered 'brownfield'.
- 4.11 All figures for retail, leisure and other commercial uses floorspace are gross square metres with the exception of the A1 use class which is net square metres, and which refers to the area of the store used for sales.

# Retail and Leisure and other commercial uses

5.1 The General Permitted Development Order (GPDO) came into effect 15 April 2015, which replaced the 1995 GPDO. One of the key changes in the 2015 GPDO was the greater flexibility in permitted development rights for change of use including between the use classes of A1, A2 and A3. The Mid Devon Commercial Land Availability 2015/16 planning permission figures monitored for A1, A2 and A3 may have been affected by the greater flexibility in permitted development rights introduced.

## A1: Shops

5.2 This use-class includes sales of goods (other than hot food), Post office, travel and ticket agencies, sale of cold food for consumption off premises, hairdressers, display of goods for sale, domestic hire shops and internet cafes.

A1	Area (ha)	Floorspace (sq.m.)
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	0.123	998.74
<b>Total Planning Permissions At March 31 2016</b>	0.293	3235.84
<b>Commencements At March 31 2016</b>	-	-
<b>Completions Between 1 April 2015 – 31 March 2016</b>	0.01	23.74

5.3 For use class A1 there will not always be an area figure, in part due to the fact that very often development is on mixed or already developed sites. All figures within the report are net floorspace where known.

5.4 In the past year 23.74 sq.m of class A1 development was completed. This is lower than last year where 120.26 sq.m was completed. Seven sites have been approved this year totalling 998.74 sq.m, which is slightly lower than last year. The total outstanding planning permissions are higher than last year. There are currently no sites under construction.

## A2: Financial and Professional Services

- 6.1 This use-class includes financial service (banks), professional services (excluding health and medical services), other services (including use as a betting shop) appropriate in a shopping area.

A2	Area (ha)	Floorspace (sq.m.)
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	0.01	144.28
<b>Total Planning Permissions At March 31 2016</b>	0.013	136.05
<b>Commencements At March 31 2016</b>	-	-
<b>Completions Between 1 April 2015 – 31 March 2016</b>	0.01	144.28

- 6.2 The figures for this use-class are generally low. This year one new site has been approved totalling 144.28 sq.m of floorspace and there are three sites under total commitments providing 136.05 sq.m of floorspace. There was one completed site totalling 144.28 sq.m., last year none were completed. There are currently no sites under construction.

## A3: Restaurants and Cafes

- 7.1 This use-class includes restaurants, snack bars and cafes for the sale of food and drink for consumption on the premises.

A3	Area (ha)	Floorspace (sq.m.)
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	-	-
<b>Total Planning Permissions At March 31 2016</b>	-	-
<b>Commencements At March 31 2016</b>	-	-
<b>Completions Between 1 April 2015 – 31 March 2016</b>	-	-

- 7.2 This year no new sites have been approved or completed. There were no sites under total commitments or under construction as at March 31st 2016.

## A4 Drinking Establishments

8.1 This use class includes public houses, wine bars or other drinking establishments (not including night clubs).

<b>A4</b>	<b>Area (ha)</b>	<b>Floorspace (sq.m.)</b>
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	-	-
<b>Total Planning Permissions At March 31 2016</b>	-	-
<b>Commencements At March 31 2016</b>	-	-
<b>Completions Between 1 April 2015 – 31 March 2016</b>	-	-

8.2 As of the 31st March 2016 there were no new permissions, commencements or completions.

## A5: Hot Food Takeaways

9.1 This use class includes the sale of hot food for consumption off the premises.

<b>A5</b>	<b>Area (ha)</b>	<b>Floorspace (sq.m.)</b>
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	-	-
<b>Total Planning Permissions At March 31 2016</b>	-	-
<b>Commencements At March 31 2016</b>	-	-
<b>Completions Between 1 April 2015 – 31 March 2016</b>	-	-

9.2 As of the 31st March 2016 there were no new permissions, commencements or completions.

## C1: Hotels

- 10.1 This use-class includes hotels, boarding and guest houses where no significant element of care is provided (excludes hostels).

C1	Area (ha)	Floorspace (sq.m.)
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	-	40
<b>Total Planning Permissions At March 31 2016</b>	-	40
<b>Commencements At March 31 2016</b>	-	-
<b>Completions Between 1 April 2015 – 31 March 2016</b>	-	-

- 10.2 As of the 31st March 2016 there was one new permission. There were no commencements or completions.

## C2-C2a: Residential Institutions

- 11.1 This use-class includes residential care homes, hospitals, nursing homes, boarding schools, residential colleges, training centres and secure residential institutions.

C2-C2a	Area (ha)	Floorspace (sq.m.)
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	-	-
<b>Total Planning Permissions At March 31 2016</b>	-	-
<b>Commencements At March 31 2016</b>	0.48	3813.8
<b>Completions Between 1 April 2015 – 31 March 2016</b>	-	-

- 11.2 Between 1st April 2015 and the 31st March 2016, no C2-C2a development has been completed. No sites have been approved this year. There are currently two sites under construction totalling 3813.8 sq.m.

## D1: Non-residential institutions

- 12.1 This use-class includes clinics, health centres, crèches, day nurseries, day centres, schools, art galleries (other than for sale or hire), museums, libraries, halls, places of worship, church halls, law court, non-residential education and training centres.

<b>D1</b>	<b>Area (ha)</b>	<b>Floorspace (sq.m.)</b>
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	0.004	40
<b>Total Planning Permissions At March 31 2016</b>	0.10	862.2
<b>Commencements At March 31 2016</b>	0.004	40
<b>Completions Between 1 April 2015 – 31 March 2016</b>	0.01	150

- 12.2 Between 1st April 2015 and 31st March 2016, one site has been completed totalling 150 sq.m of floorspace. The total outstanding permissions amount to approximately 862.2 sq.m of floorspace. There is currently one site under construction totalling 40 sq.m of floorspace as at March 31st 2016.

## D2: Assembly and leisure

- 13.1 This use-class includes cinemas, music and concert halls, bingo, dance halls (but not nightclubs), swimming baths, skating rinks, gymnasiums or area for indoor or outdoor sports and recreation (except for motor sports, or where firearms are used).

<b>D2</b>	<b>Area (ha)</b>	<b>Floorspace (sq.m.)</b>
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	4.21	987.54
<b>Total Planning Permissions At March 31 2016</b>	9.84	2252.81
<b>Commencements At March 31 2016</b>	0.046	814.5
<b>Completions Between 1 April 2015 – 31 March 2016</b>	3.636	1378.9

- 13.2 The new permissions area total is higher than last year, however the floorspace total is lower than last year. The total number of permissions is slightly down on last year. Those under construction are slightly higher. However, completions are higher than last year with 1378.9 sq.m. completed compared to 156 sq.m. last year.
- 13.3 Often for this use-class there is no floorspace total or a low total, and this can be attributed to the nature of the developments e.g. fishing lake, tennis court. Where there is a floorspace total this has been where a pavilion or an extension to a leisure complex has been built.
- 13.4 As with any other use-class the amount of development can very much depend on the availability of suitable land for development, the form of tenure of the land and the 'need' for a particular development.

## Sui Generis

- 14.1 This use-class includes certain uses that do not fall within any other use class and are therefore considered 'sui generis'. Such uses include betting offices/shops, pay day loan shops, theatres, houses in multiple occupations, hostels providing no significant element of care, scrap yards, petrol filling stations and shops selling and/or displaying motor vehicles, retail warehouse clubs, nightclubs, launderettes, taxi businesses, amusement centres and casinos.

Sui Generis	Area (ha)	Floorspace (sq.m.)
<b>New Planning Permissions Between 1 April 2015 – 31 March 2016</b>	0.04	365
<b>Total Planning Permissions At March 31 2016</b>	0.027	285.2
<b>Commencements At March 31 2016</b>	--	--
<b>Completions Between 1 April 2015 – 31 March 2016</b>	0.04	373.4

- 14.2 During this monitoring period, two sui generis developments were completed amounting to 373.4 sq.m of floorspace. In addition, 365 sq.m of sui generis use has been approved, and 285.2 sq.m of floorspace is committed as at March 31st 2016.

# B1, B2 & B8 Employment Land

## Employment Land New Planning Permissions

15.1 The table below provides a yearly comparison of employment land approvals over the past year. It includes sites that have also been permitted and completed between April 2015 and March 2016. The figures include only sites which provide additional employment land or floor area. They do not, for example, include approval of reserved matters on a site which already has outline consent unless it resulted in a change to floor area.

Year (1 April to 31 March)	Area (ha)	Floorspace sq.m.
<b>1 April 2006 - 31 March 2007</b>	7.57	6825.52
<b>1 April 2007 - 31 March 2008</b>	1.10	11790
<b>1 April 2008 - 31 March 2009</b>	7.3844	23853.70
<b>1 April 2009 - 31 March 2010</b>	0.47	3807.89
<b>1 April 2010 - 31 March 2011</b>	0.212	2144.47
<b>1 April 2011 - 31 March 2012</b>	0.617	7838.25
<b>1 April 2012 - 31 March 2013</b>	1.317	6173.75
<b>1 April 2013 - 31 March 2014</b>	0.802	8516.36
<b>1 April 2014 - 31 March 2015</b>	5.58	17690
<b>1 April 2015 - 31 March 2016</b>	7.8315	23731.42

15.2 The floorspace total includes extensions or new buildings within the curtilage of existing premises and industrial estates; however these are not included within the area total. Such sites are only included if their floorspace is known.

15.3 The area total includes outline planning permissions and where necessary an assumed floorspace is used based on 35% site coverage.

15.4 Approvals of employment floorspace have risen significantly this year, despite fluctuating in previous years. Over the last five years an average of 12789.95 sq.m has been approved, but approvals in 2009/10 and 2010/11 were unusually low. This year 23731.42 sq.m has been approved. This is 6041.42 sq.m more than was approved last year as 17690 sq.m was approved in 2014/15.

### New Planning Permissions

### Employment Land Total Planning Permissions

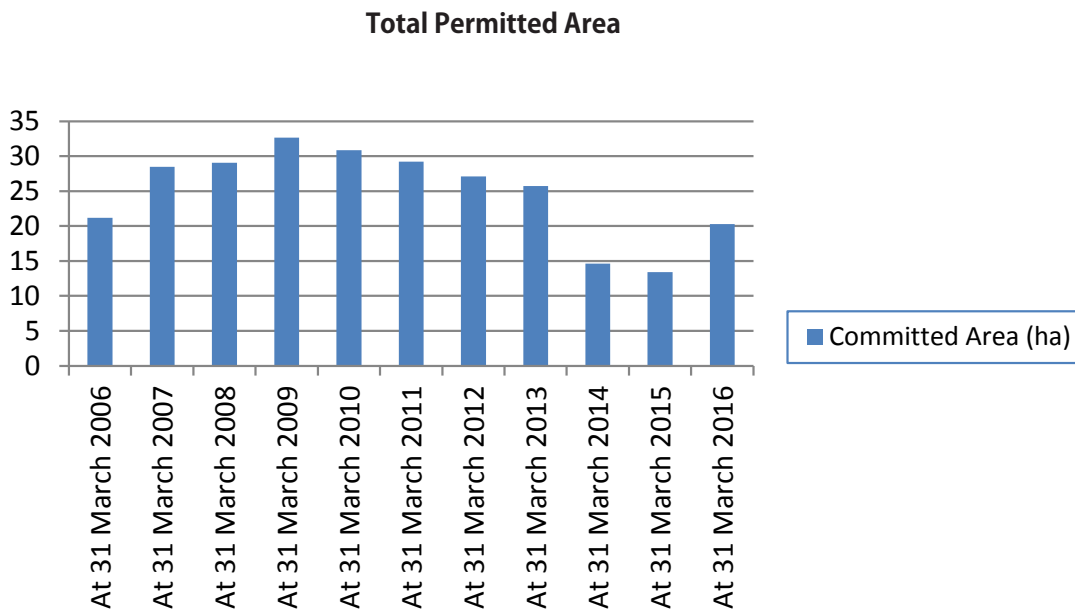

- 16.1 The table below indicates the total permitted employment land for development as at the end of each year since 2006 i.e. land with a valid permission for employment use.
- 16.2 Included within Table 12 are new approvals and previous years' commitments (planning permissions) that are extant.

Timeframe	Permitted Area (ha)	Floorspace (m2)
At 31 March 2006	21.195	
At 31 March 2007	28.453	(86091.94)
At 31 March 2008	29.062	(86995.82)
At 31 March 2009	32.6388	(111382.15)
At 31 March 2010	30.8418	(105140.06)
At 31 March 2011	29.2188	(96204.53)
At 31 March 2012	27.1208	(95882.93)
At 31 March 2013	25.7108	(90421.20)
At 31 March 2014	14.629	(31966.57)
At 31 March 2015	13.42	(21924.92)
At 31 March 2016	20.2955	38315.42

The floorspace showing in brackets in the above table includes both known floorspace figures and an assumed floorspace capacity on outline applications of 3500sq.m per hectare

- 16.3 Excluded are local plan allocations without a current permission. Extensions or new buildings within the curtilage of existing premises and industrial estates are given a site area of 0ha.

16.4 Since 2009, permitted employment land has been decreasing and a number of planning permissions have lapsed. However, this year (15-16) the permitted area totals have increased. Last year the permitted area total was 13.42 ha, this year it has increased to 20.29 ha.

## Employment Land Commencements

17.1 Looking at employment land under construction in the table below can indicate how employment development is progressing and how it will develop over the coming year.

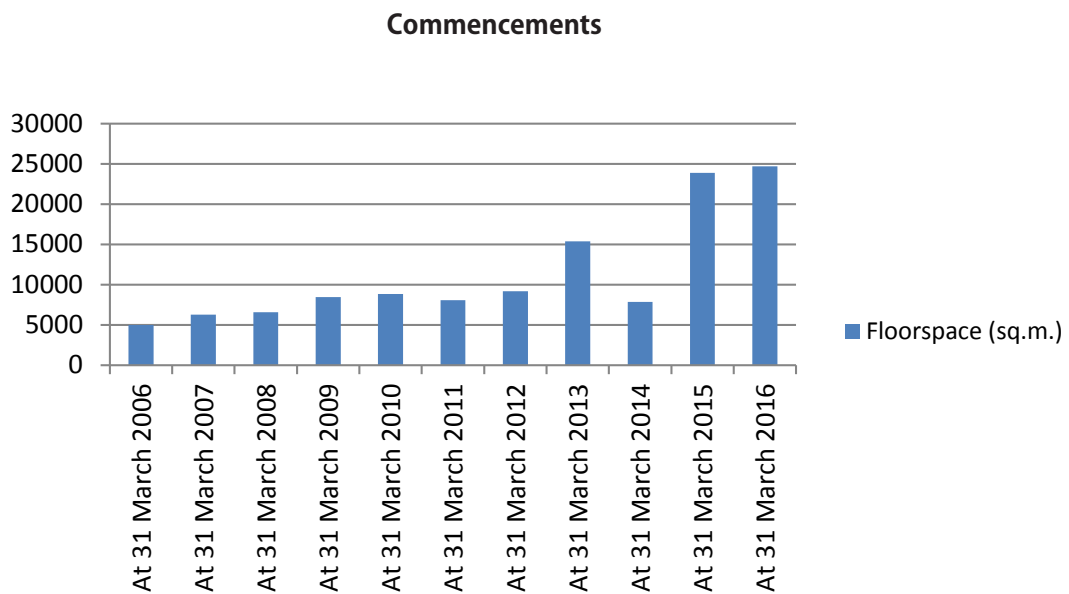

17.2 The floorspace total includes extensions or new buildings within the curtilage of existing premises and industrial estates. However, these are not included within the area total.

Timeframe	Commencements (ha)	Floorspace (sq.m.)
At 31 March 2006	4.312	4986.17
At 31 March 2007	2.844	6267.17
At 31 March 2008	1.615	6569.29
At 31 March 2009	1.4234	8453.67
At 31 March 2010	2.1814	8832.65
At 31 March 2011	2.2569	8047.00
At 31 March 2012	2.8389	9172.15
At 31 March 2013	3.9219	15383.92
At 31 March 2014	2.0899	7853.45
At 31 March 2015	7.3169	23892.05
At 31 March 2016	7.6969	24677.00

17.3 Floorspace under construction has tended to increase year on year since 2006 barring a slight reduction in 2011 and 2014. In 2013, a large site in Burlescombe commenced, it was completed in 2014. This year has slightly increased with 24677 sq.m currently under construction.

17.4 The amount of floorspace under construction is influenced by the availability of land coming onto the market and the time taken for this 'availability' to translate into construction and ultimately completion. Poor economic conditions since 2009 resulted in flatlining of additional floorspace under construction. Subsequent indications are that the market is considerably improving following significant increases in 2013, 2015 and 2016.

## Employment Land Completions

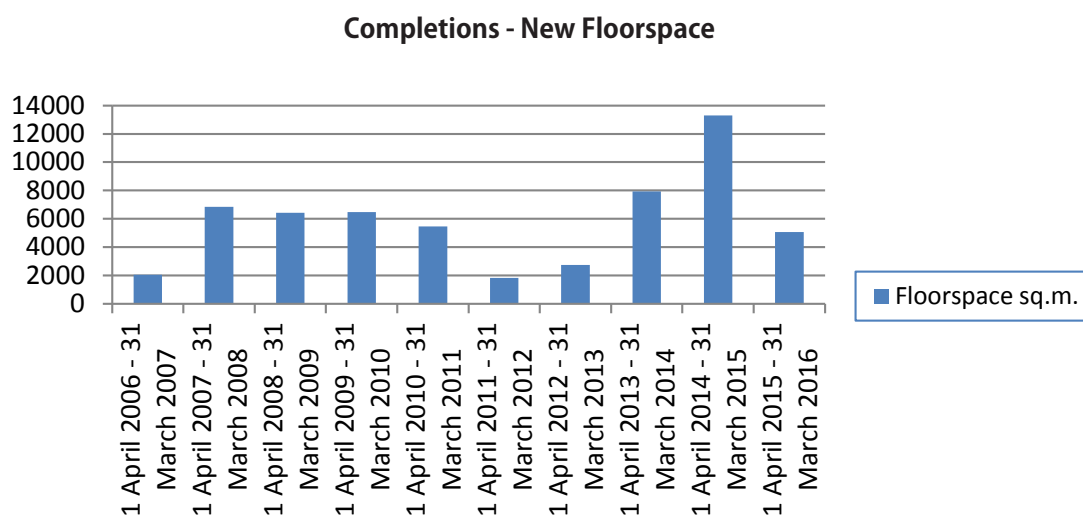

18.1 The table below indicates employment completions or employment growth within a given year, It includes applications that have also been approved and completed between April 2015 and March 2016.

18.2 The floorspace total includes extensions or new buildings within the curtilage of existing premises and industrial estates, but these are not included within the area total.

Year (1 April to 31 March)	Completed Area (ha)	% Brownfield (completed area (ha))	Floorspace sq.m	% Brownfield (completed floorspace)
1 April 2006 - 31 March 2007	2.557	3.5	2044	42.6
1 April 2007 - 31 March 2008	1.82	4.5	6854	54.5
1 April 2008 - 31 March 2009	1.8172	20.36	6425.07	39.51
1 April 2009 - 31 March 2010	0.345	76.8	6468	80.7
1 April 2010 - 31 March 2011	0.9345	43.9	5458.65	57.03
1 April 2011 - 31 March 2012	0.21	33.3	1839.6	79.9
1 April 2012 - 31 March 2013	0.752	70.21	2751.31	69.4
1 April 2013 - 31 March 2014	0.995	65.23	7943.62	91.26
1 April 2014 - 31 March 2015	1.543	25.15	13311.09	45.80
1 April 2015 - 31 March 2016	0.366	18.03	5072.22	42.43

18.3 Building rates can be attributed to a number of factors, for example the overall health of the local economy, availability of employment land for development and form of tenure of the land.

18.4 This year 2015-2016 5072.22 sq.m of employment floorspace was completed. This is down on last year as last year was the highest completions figure since monitoring began in 2006 with over 13,000 sq.m being completed.

# Development Plan Allocations

19.1 The Council’s Development Plan (which provides the legal basis for planning decisions) sets out policies on retail, leisure and employment land.

## Retail and Leisure Allocations

19.2 The Allocations and Infrastructure Development Plan Document (AIDPD) allocates a range of sites which include provision for retail and/or leisure. The table below indicates the current position of allocated land for retail and leisure.

Site	Location	Policy	Total Area (ha)	New Retail Space (sq.m.)	At 31st March 2016	Comment
<b>Phoenix Lane</b>	Tiverton	AL/TIV/19	0.3 ha		No application yet, though masterplanning underway	Allocation of approx. 2400sq.m of Retail, Office and/or Leisure.
<b>Bampton Street</b>	Tiverton	AL/TIV/20	0.07 ha		No application yet.	Allocation to provide small retail units to accommodate 900 sq.m of floorspace.
<b>Eastern Urban Extension</b>	Tiverton	AL/TIV/4	1.0 ha		An outline application for 330 dwellings, public open space, associated infrastructure and other works was granted on 18/09/15.	Within AL/TIV/1 153 ha Mixed Use Site, Housing, Employment, Retail & Leisure. This site is 2.0 ha, 1.0 ha Retail, 1.0 ha for Community Building.

## Employment Land Allocations

- 19.4 The adopted Core Strategy states that an additional 290,000 sq.m of employment land is required by 2026 at 14,700 sq.m per annum or above 4.2 ha per annum.
- 19.5 The Allocations and Infrastructure DPD (AIDPD) allocations shown below were based on the above guideline, as well as taking into account past developments and existing commitments. Following an Employment Land Review in 2013, the quantity of employment land on the Tiverton Eastern Urban Extension and the North West Cullompton Urban Extension has been reduced as preparation of the masterplans has progressed.
- 19.6 The table below indicates the current position of employment land allocated in the Local Plan.

Site	Location	Type	Policy	Total Area (ha)	Allocation Remaining without permission at March 2016	Comment
<b>Stone Crushing Works</b>	Bampton	Brownfield	BA1	0.11	0	Mixed Development 0.45ha (0.34 housing, 0.11ha Employment) Last permission granted 02/15
<b>Bourchier Close</b>	Bampton	Greenfield	AL/BA/2	1.1	1.1	Mixed Use Allocation Site (Housing & Employment) Whole site 2.4ha, 1.3ha housing, 1.1ha/4000 sq.m Employment
<b>South of Ister Cross</b>	Bow	Greenfield	AL/BO/2	0.5	0.5	Allocation of 0.5 ha / 17000 sq.m for Employment Development
<b>South West of Junction Road</b>	Bow	Greenfield	AL/BO/3	0.6	0.6	Allocation of 0.6 ha / 2100 sq.m for Employment Development
<b>South East of Village Hall</b>	Kentisbeare	Greenfield	AL/KE/1	0.14	0.14	Mixed Use Allocation Site (Housing & Employment) whole site 0.8 ha, 0.66 ha Housing, 0.14 / 500 sq.m Employment
<b>Wellparks</b>	Crediton	Brownfield	AL/CRE/7	1.5	0.7	Allocation of 1.5 ha / 4150 sq.m for Employment Development, 1935 sq.m has been granted 03/16.

<b>North West Cullompton</b>	Cullompton	Greenfield	AL/CU/1	11.4	11.4	Mixed Use Allocation Site (Housing & Employment) Whole site 74.8 ha, 63.4 ha Housing, 11.4 ha/40000sq.m Employment. Draft Masterplan proposes a reduction to 1.8ha / 10,000 sq.m.
<b>Week Farm</b>	Cullompton	Greenfield	AL/CU/13	10.5	10.5	Allocation of 10.5a/15000sq.m for Employment Development.
<b>Eastern Urban Extension</b>	Tiverton	Greenfield	AL/TIV/1	6	6	Mixed Use Site (Housing/ Employment/Retail & Leisure. Employment 6ha/ 30000sq.m within Masterplan.
<b>Blundells School</b>	Tiverton	Brownfield	AL/TIV/9	2.00	2.00	Mixed Use Allocation Site (Housing & Employment). Whole site 14ha, 12ha Housing, 2ha Employment @ 35% plot ratio (7000 sq.m)
<b>William Street</b>	Tiverton	Brownfield	AL/TIV/13	0.2	0.2	Mixed Use Allocation Site 0.9 ha (0.2 ha Employment)
<b>Willand Industrial Estate</b>	Willand	Greenfield	WI1	11.7	4.9583	Allocation of 11.7 ha for Employment. Application for 450 sqm B1, B2 and B8 granted 10/15. Also an application for 12,826 sq.m B1, B2 and B8 granted 03/16.

# Land Lost

## Land Lost: Retail and Leisure and other commercial uses

20.1 The table below details the loss of land between 1st April 2015 and 31st March 2016.

Site	Location	Area (ha/sq.m.)	Reason
<b>A1</b>			
<b>Earth Gallery Flowers</b>	Bampton	0.004/40	Residential
<b>25 High Street</b>	Crediton	0.02/152	Residential
<b>27 High Street</b>	Cullompton	0.003/30	Residential
<b>Lapford Butchers</b>	Lapford	0.002/25	Residential
<b>26 Newport Street</b>	Tiverton	0.01/70	Residential
<b>12 Church Street</b>	Tiverton	0.01/80	Residential
<b>2 St Peter Street</b>	Tiverton	0.002/28.4	Residential
<b>12 The Square</b>	Uffculme	0.004/39.8	Residential
		Total: 0.055/465.2	
<b>A3</b>			
<b>45 Gold Street</b>	Tiverton	0.01/140	Residential
		Total: 0.01/140	
<b>A4</b>			
<b>The Ayshford Arms</b>	Burlescombe	0.02/153.6	Residential
<b>The Twyford Inn</b>	Tiverton	0.05/500	Residential
<b>Former Hare &amp; Hounds</b>	Tiverton	0.05/486	Residential
		Total: 0.12/1139.60	
<b>D1</b>			
<b>Memorial Rooms</b>	Tiverton	0.02/211.7	Residential
		Total: 0.02/211.7	
<b>D2</b>			
<b>Hall and Land at NGR 272174 101673</b>	Bow	0.01/90	Residential
		Total: 0.01/90	

20.2 The loss of land can be attributed to a number of factors for example lack of demand in the future for that use, site constraints and increased demand for other uses e.g. residential.

## Land Lost: Employment Land

20.3 The table below details the loss of employment land between 1st April 2015 and 31st March 2016.

Site	Location	Area (ha)	Reason	Use Class Lost
<b>3A Parliament Street</b>	Crediton	0.01ha	Residential	B1a
<b>17 High Street</b>	Cullompton	0.02ha	Residential	B1a
<b>Bridge Meadow Industrial Estate</b>	Lapford	0.03ha	Residential	B2
<b>Lapford Butchers</b>	Lapford	0.03ha	Residential	B2
<b>36E Park Street</b>	Tiverton	0.008ha	Residential	B1a
<b>Little Field</b>	Wembworthy	0.01ha	Residential	B1a
		<b>Total: 0.108ha</b>		

20.4 The loss of employment land has slightly increased to 0.108 ha. In 2014-15 the loss was 0.03ha. Any loss of employment land can be attributed to a number of factors for example lack of demand in the future for that employment use, site constraints and increased demand for other uses e.g. residential, retail. Losses of employment land continue to be small, indicating strong demand and a protective policy approach in recent years. However, recent changes to permitted development rights allows change of use from office to residential and is likely to result in future losses of B1 uses going forwards.

# Area Summary

## Retail and Leisure and Other Commercial Uses Area Summary

21.1 The table below shows the 'urban'/'rural' picture within Mid Devon with regards to retail and leisure and other non-B class commercial development. The urban areas include Tiverton, Crediton, and Cullompton.

Area	New Planning Permissions (Between 1 April 2015 – 31 March 2016)		Total Planning Permissions (At 31 March 2016)		Commencements (At 31 March 2016)		Completed (Between 1 April 2015 – 31 March 2016)		Other

## Employment Land Area Summary

21.2 The table below shows the 'urban'/'rural' picture within Mid Devon with regards to employment land development.

Area	New Planning Permissions (Between 1 April 2015 - 31 March 2016)		Total Planning Permissions (At 31st March 2016 sq.m below includes assumed floorspace on outline applications (3500 sqm per ha))		Commencements (At 31 March 2016)		Completed (Between 1 April 2015 – 31 March 2016)		Other
	(ha)	(sq.m)	(ha)	(sq.m)	(ha)	(sq.m)	(ha)	(sq.m)	
<b>Rural Parishes</b>	6.6515	20241.62	7.4215	20865.62	2.5069	8683	0.366	3489.22	6 Local Plan Allocations totalling 14.15 ha. The allocation at Willand has two small parts completed and a large part of the remainder has planning permission. Bampton (BA1) is mostly completed, the rest remains with planning permission. Currently one allocated site in Bampton, two in Bow and one in Kentisbeare have no planning permission.
<b>Urban (Crediton, Cullompton &amp; Tiverton)</b>	1.18	3489.8	12.874	17449.8	5.19	15994	0.00	1583	6 Local Plan Allocations totalling 31.6ha. An application on the Tiverton EUE site has resolution to grant permission subject to a S106.

21.3 Last year (14-15) there was less committed land in both the urban and rural areas compared to the year before. This year (15-16) there is substantially more. There are more planning permissions in the rural areas, however less in the urban areas. There is more commenced employment floorspace in rural areas. Completions are lower in both areas.

21.4 The urban areas (ha) have more total planning permissions than rural areas. However, the rural areas (ha) are higher for new planning permissions. Urban areas (ha) are higher for commencements. Rural areas are higher for completions. Overall completions are similar to previous years. Last year (14-15) completions were the highest since monitoring began in 2006.

## Area Summary (All Use Classes)

22.1 The table below shows the total amount of commercial development that took place between 1st April 2015 and the 31st March 2016.

	Sq.m
<b>New Planning Permissions (Between 1st April 2015 – 31st March 2016)</b>	26306.98
<b>Total Planning Permissions (At 31st March 2016)</b>	45127.52
<b>Commencements (At 31st March 2016)</b>	29345.3
<b>Completions (Between 1st April 2015 – 31st March 2016)</b>	7142.54

# Conclusion

- 23.1 Mid Devon is a rural district and therefore it should be recognised that there is only a limited supply of land available at any one time. There is often pressure for non-employment uses such as housing when such sites become available for development. In addition, there is only a limited supply of brownfield land available at any one time, there tends to be a lot more greenfield development in Mid Devon such as conversions of agricultural buildings to employment use, as there is diversification away from traditional farming.

## Retail, leisure and other commercial uses

- 23.2 Much of the development within Mid Devon is in the form of extensions onto existing buildings or new buildings within the curtilage of an existing building, so the total site area figure can look artificially low. The floorspace of approvals and completions are lower than the previous reporting year. However, the commitments and commencements are higher than the previous reporting year. As a number of the retail and leisure use classes were not monitored before 2014/15, limited historic data is available to analyse changes over time. In future years the Council will be able to identify trends and changing priorities for development to determine whether revisions to adopted policy documents might be needed.

## Employment

- 23.3 A lot of employment land within Mid Devon is in the form of extensions to existing buildings or new buildings within the curtilage of existing buildings. The overall site area cannot be calculated in these cases, so the area (ha) figure in the tables can look fairly low.
- 23.4 The increases in floorspace along with the smaller area totals are a good indication that employment land is being developed on already existing sites.
- 23.5 Looking forward into the next year (April 2016 to March 2017) there has been an increase in the number of new planning permissions in rural areas, but a reduction in urban areas. There has been an increase in the number of commencements in rural areas. There have been increases in the total number of extant planning permissions in both areas. There remains a strong demand for smaller windfall sites, which is consistent with the findings of the Employment Land Review (2013).
- 23.6 Slower development of new employment floorspace is due in part to competition from nearby larger employment centres such as Exeter and Taunton. However two Masterplan Supplementary Planning Documents have been adopted in recent years for Tiverton Eastern Urban Extension and North West Cullompton Urban Extension which both include provision for employment floorspace.
