

Planning and Compulsory Purchase Act 2004

The Town and Country Planning (Local Planning) (England) Regulations 2012

Statement of Representations Procedure

Title of consultation: Schedule of amendments made to the Sustainability Appraisal update 2017.

Publication date: 28 February 2018

Consultation on the Schedule of Amendments made to the Sustainability Appraisal Update (2017) takes place from **28 February to midnight 11 April 2018**. All relevant consultation documents are available to view online at www.middevon.gov.uk/localplanreview, Mid Devon Phoenix House and at public libraries (including the mobile library) during normal opening hours.

Please note that this consultation invites representations on the schedule of amendments made to the Sustainability Appraisal update (2017) only and not the Local Plan Review (which remains unchanged) or its accompanying Community Infrastructure Levy (Draft Charging Schedule).

Formal representations are now invited on the schedule of amendments made to the Sustainability Appraisal Update (2017). These must be made in writing (by post or by email) and be received on or before **11 April 2018 (midnight)**. When making a representation you must include your name and full postal address, otherwise your comments cannot be registered. Your comments will be published on our website, including your name and address. Addresses will only be used by the Council to inform people about the new Local Plan and other planning matters.

All representations received on this schedule will be submitted to the Planning Inspectorate, where they can be considered together with all other consultation responses previously made on the Local Plan. It is anticipated the examination hearings can then be reconvened later this year at a date that is set by the Planning Inspectorate.

Representations can be made by emailing to planningconsultations@middevon.gov.uk or posted/delivered to Sustainability Appraisal Consultation 2018, Forward Planning, Mid Devon District Council, Phoenix House, Tiverton EX16 6PP.
