

Staff Charter

Mid Devon District Council – Staff Charter

Introduction:

The aim of this charter is to set out some guidelines for staff so that they understand what is expected of them and what to expect of their employer.

We take the health and wellbeing of our staff very seriously and, to that end, we have various policies which help to protect staff in certain situations. These are:-

- Whistleblowing policy** –this is available for staff who have concerns about the legality of anything the Council is doing or any unsafe practices which are occurring. In the first instance we would hope that any such matter can be brought to the attention of your manager and be addressed. However, if this does not happen you are encouraged to use the Whistleblowing policy. This is an important area for us; staff should be free to bring wrong-doing of any sort to the attention of management at the Council and know that they will be supported through the process.
- Dignity at Work policy** - bullying and harassment of anyone is not acceptable in any working environment. That means you should not bully others and you should not have to endure bullying yourself. The Dignity at Work policy will give you information about what to do if you find yourself in this sort of situation. Please talk to your manager and/or HR to get support as soon as possible - You will be taken seriously and you will be supported. No one should have to dread going to work, so please do not suffer in silence if this happens.

The Leadership Team takes these issues very seriously and would hope that staff take them seriously too and report any concerns. We want to get the very best out of the staff who work for us and in order to do this we need to give you the opportunity to enjoy coming to work.
