ADDITIONAL INFORMATION ABOUT FEES

Elements of fees

The fees for a number of licenses are made up of two parts, Part A and Part B. Part A covers the direct costs associated with processing the application and is payable on submission of the application. Part B covers the costs associated with the running of the licensing function. This includes dealing with complaints, enforcement and some general administration. This fee is payable once a licence has been granted but must be paid before the licence becomes operational and valid.

Duration of licences

Under the *Animal Welfare (Licensing of Activities Involving Animals) (England) Regulations 2018*, licences can last 1, 2 or 3 years (with the exception of licenses for the exhibition of animals which last 3 years). The length of licence is dependent on the risk score and star rating given to the business following an inspection of the premises.

Licenses for Dangerous Wild Animals last 2 years and licenses for Zoos last either 4 or 6 years.

Vet inspections

Where required, veterinary inspections are arranged and charged separate to the Part A and Part B fees. The number of veterinary inspections is dependent on the relevant legislation and the compliance / standard of the premises.

Additional Activity Fees

If a premises is undertaking more than one activity, the higher fee of the two activities must be paid together with the additional activity fee of £72.00.
